## Wireless Surveillance System with 4 x Y-Cam WiFi Cameras & NVR

Four Camera wireless surveillance system with 4 Y-Cam IP Cameras and 4ch NVR delivering a robust CCTV system with remote access from PC or mobile phone. Plug & Play for quick setup out of the box.

### Overview

The Y-Cam Camera and NVR Package delivers a complete Wireless IP CCTV Surveillance System consisting of 4 award winning Y-Cam IP cameras and a dedicated wireless network video recorder with integrated multi-camera software providing a high quality CCTV system for home or business.

The system allows you to view & record video 24 hours a day with over 30-100 days integrated storage. Backup video to HDD, USB or CD/DVD. Compared to other NVRs on the market, with this system, you do not need another PC to view or record video and also includes HDMI & VGA video outputs, WiFi b/g/n, 8 USB ports, DVD/RW. Also View video remotely from any PC or mobile phone.

### Innovation

- 4 channel record & playback<sup>1</sup>
- HDMI, DVI/VGA Output
- Wireless WiFi 802.11n
- Low Energy Footprint < 24w<sup>2</sup>
- DVD/RW & Card Reader
- Backup to USB3, CD/DVD, E-Sata
- Keyboardless Operation
- View video on mobile phone\*

### Options

- Optional Air Mouse
- Media Management Software
- Professional NVR Software
- Video Analytics Engine
- Smoke Detection Engine
- Optional 2TB Storage
- Advanced Software Upgrade

Bundled with Multi-Camera CCTV Surveillance Software

Desktop, TFT or Wall Mount

Keyboard-less operation with air mouse or use your i-phone in air

# Information

1.5/U/0511/BK

## Model

## YB1-04

# Video Channels	4 (up to 8)
Live View Resolution	Up to 1080p
Recording Resolution	4ch x 4CIF @ 30fps 4ch x 720p @ 12fps 1ch x 1080p @ 25fps 8ch x CIF @ 15fps
